TOWN OF DEERFIELD

TOWN WATER/LOCAL LAW

SECTION 1 - PURPOSE; LIMITATIONS OF SERVICE

- A. The Town Board recognizes that the future health, safety and prosperity of its residents and businesses depend upon an adequate supply of clean, potable water and the establishment and ongoing maintenance of an effective water system owned by the Town and maintained by the Utica Board of Water Supply. Such can be assured through careful, vigilant management and a local law which provides the mechanisms and safeguards to prudently manage, conserve and distribute this valuable but limited resource and assures the funding necessary to achieve these goals.
- B. While it is the desire of the Town to provide such water to all who have reasonable need for the same and are willing to abide by the conditions of service and pay the necessary administrative and other charges therefor, as described hereinafter, all users of the system, present and future, should be aware of the following limitations, which the Board deems to be reasonable and necessary.
1. The first priority is to assure a fair and equitable distribution of water, with adequate pressure to all residents and businesses of the Town, with due regard to the fact that, at all times, there must be a sufficient reserve within the Town water system to provide for growth and development within the Town, adequate fire protection, other emergencies, droughts and the unexpected.
 2. All of the users of the system must recognize that the Utica Board of Water Supply may, in its discretion, interrupt and/or withhold service to everyone using the system, from time to time, for emergency purposes and/or that the water supply or pressure may be discontinued, delayed, diminished and/or interrupted due to water shortages for whatever reason and that in such an eventuality, nether the town, the water district, or the Utica Board of Water Supply shall be held responsible for damages.
 3. Any and all current or future users accept continued or future service subject to the above basic purposes and limitations and the terms hereinafter described, as their use of the Town water supply constitutes a contractual relationship whereby the user, in return for a supply of water, agrees to the policy, purposes, regulations and penalties set forth herein, agrees to pay the rates established hereinafter and also agrees to allow the Town or Utica Board of Water Supply employees access to the user's property for the purposes hereinafter described.

SECTION 2 - CONDITIONS OF SERVICE

- A. When any person, firm or corporation, hereinafter called the "user" who owns or otherwise uses property situate within the Town and desires to in any way connect into the Town water system or otherwise use water, for any purpose, such user shall, prior to any such use or consumption of water, be required to first prepare and file a written application with the Utica Board of Water Supply and/or Town which shall be accompanied by whatever application fee the Town and/or Utica Board of Water Supply shall prescribe pursuant to this local law and/or the other valid requirements.

TOWN OF DEERFIELD

TOWN WATER/LOCAL LAW

SECTION 3 - CONNECTIONS

- A. Notwithstanding any provision of this local law to the contrary, it shall be a violation of this local law to make any connection to the water supply system or any private main serviced by Town water outside the corporate limits of the Town without obtaining prior written consent of the Utica Board of Water Supply and/or the Town.
- B. The connection of any pumps or heat pumps or similar devices, which extract heat or cold from water, to the water supply system is expressly prohibited.

SECTION 4 - PERMIT REQUIRED FOR ADDITIONAL OR OTHER USE OF WATER

Permits shall be those required by the Utica Board of Water Supply Rules, Regulations and Charges at the time of proposed uses or addition.

SECTION 5 - CHARGES FOR ALTERATION OF SERVICE AND FILLING OF SWIMMING POOLS

Charges shall be those imposed by the Utica Board of Water Supply Rules, Regulations and Charges at the time service is provided.

SECTION 6 - INSPECTIONS; REPAIR OF CONDITIONS CAUSING WASTE OF WATER REQUIRED

- A. Any authorized Town official or employee of the Utica Board of Water Supply shall have the right of entry into any building to which water is furnished, during reasonable hours for the purpose of making inspection of the plumbing system installed in such building or premises. The owner of such premises must, within the specified number of days (minimum 10) of such notice to him/her or to his/her tenant, repair or cause to be repaired any defective faucet, meter, appliance or any other condition which is causing the wasting of water. Upon failure to do so, the Utica Board of Water Supply shall have the right to summarily and without further notice discontinue the furnishing of the water to said premises, in addition to the other penalties described hereinafter. In the event of an emergency as determined by the Town and/or the Utica Board of Water Supply, the notice period may be extended, and in such event, the Town and/or the Utica Board of Water Supply shall have the right to impose reasonable requirements upon the owner and/or user and also

All users having boilers within their premises which depend upon the pressure in the pipes to keep them supplied operate the same at their own risk. Risk of loss or damage in all cases shall be exclusively by the user.

SECTION 9 - LIABILITY OF TOWN

The Town of Deerfield undertakes only to use reasonable care and diligence to provide a constant supply of water through its mains to consumers. In any case, the Town shall not be responsible for any problems that occur from the point where the user connects to the water main line to the user's structure or within the structure itself. Although it is manifestly in the interest of the Town that no break, failure or accident should occur, it is provided, however, that in the event of such occurrence, the Town of Deerfield shall not be liable to any user or property owner for any damages resulting from the public enemy, the elements or any accident, misfortune, failure and break in the reservoir or mains of the Town. Anyone who applied for and/or uses Town/UBWS water accepts the same with that understanding.

SECTION 10 - MAINTENANCE TO BE RESPONSIBILITY OF OWNER

It shall be the duty of each property owner and/or user to maintain all faucets, valves and private water pipes in a state of good repair and ensure that there shall be no unnecessary waste of water.
